Act on Climate Pricing Guide

Executive Summary

Product

The purpose of Act on Climate will be a website based platform for those who are interested in learning about climate change, getting into the sector, and wanting to take action to join the platform for connecting with like-minded climate change individuals. The platform will serve as a base for jobs, opportunities, and resources to share on all things climate change.

Customers

The target audience for this would be anyone who is interested in climate change, founders, youth, businesses, climate change experts, nonprofits, international organizations, charities, NGOs and more. The reason why the target audience would be many different groups is because of how fast the climate space is and Act on Climate would want to work on creating a community based platform where everyone can share and build together.

In short points:

1. Someone who is looking for community in the climate space
2. Wants access to jobs, resources, mentors, and content to assist them in their climate journeys
3. A young person, professional, interested individual
4. Someone who does not have all the time for browsing through lots of content and that its easy access

The Why

Act on Climate is looking to develop a community based platform in order to connect other like minded individuals who are unsure on where to access jobs, resources, and opportunities in the climate space. The mission of our company is to create a platform and opportunities where people can connect and get access to the latest jobs, resources and activities in the climate space.

How our membership a Works

Act on climate is a membership based platform. Our membership is the heart of what we do. We offer both services for non-members and members. Down below you will learn more about our membership, how it works, pricing and benefits.
